A fresh take on TV for your Mac

TVMicro Express™ and 'The Tube' offer a new perspective on TV on your Mac. Checking the news while you work and getting the latest sports results while typing your e-mails just got easier.

Use the "TV window always in front" option to watch TV while you work, let the smart resize option automatically adapt window resizing to its position on the screen, get an overview on what is playing on all TV channels in the blink of an eye and so much more - 'The Tube' will adapt the TV window according to your workflow.

For any iPod® user why not share any content onto your iPod®, a fantastic opportunity to watch your favourite show on the go. With such great picture quality and choice you'll be wishing your train journey lasted that little bit longer.
